

Game Developer

FURKAN YILDIZ

Phone: +90 (538) 548 88 78 **Email:** a.furkanyildiz@outlook.com

Address: Bodrum, Mugla, Turkey 48420

PROFILE

Energetic and creative fourth-year Digital Game Design student with a strong passion for crafting immersive experiences. Equipped with a unique blend of technical and artistic skills, bringing hands-on experience in 2D/3D design, visual asset creation, and gameplay programming. Proficient in developing games using Unreal Engine (C++/Blueprints) and Unity (C#), alongside HTML, CSS, Java, and a professional background in graphic design. Eager to leverage this hybrid expertise in dynamic game development teams to bridge the gap between art and code.

CORE COMPETENCIES

- Programming & Scripting: C++, C#, Python, HTML, CSS, Java, Unreal Engine Blueprints
- Game Engines: Unreal Engine, Unity
- Game Development: Game Mechanics Design, Level Design, Prototyping, Bug Resolution, Playtesting, Version Control
- Art & Design: 3D Modeling, UI/UX Design, 2D/3D Asset Integration
- Soft Skills: Effective Communication, Fast Learner, Problem-Solving.

WORK EXPERIENCE

Programmer & UI Designer | 2023

Why Not – Academic Group Project, Mugla Sitki Kocman University

- Collaborated in a 3-person team to develop a 2D side-scroller adventure game over 2 months using Unity and C#.
- Programmed core gameplay mechanics, including character movement, jumping physics, and platform interactions.
- Developed the in-game economy system and implemented simple AI movement loops for level obstacles.
- Managed the integration of sound effects and contributed to the design of 2D visual assets.

Programmer & Audio Designer & Writer | 2024

Black Magic – Academic Group Project, Mugla Sitki Kocman University

- Collaborated in a 3-person team to develop a 2D platformer and shooter game over 2 months using Unity and C#.
- Coded aiming and shooting mechanics based on Olympic disciplines (Trap, Skeet, etc.) and developed a unique "Stress Mechanic" that dynamically adds a shaking effect to the player's aim upon missed shots.
- Designed and implemented enemy AI, the game's save system, and seamless level transition flows.
- Wrote the game's atmospheric script (set in a cursed forest) and integrated background music and sound effects to enhance the dystopian setting.

Game Developer | 2025-02

Red Knight Game, TeduJam2025 (GameJam), Mugla, Turkey (Remote)

- Developed the game's programming and level design using C++ in Unity, and created the original game concept.
- Designed and implemented gameplay mechanics and interactive elements for multiple titles.
- Developed innovative gameplay mechanics to provide challenging and enjoyable gaming experiences.
- <https://aralanba.itch.io/the-red-knight>

Programmer & Game Designer | 2025

Hallowed Decay – Academic Group Project, Mugla Sitki Kocman University

- Collaborated in a 4-person team to develop a first-person psychological horror and puzzle game over 2 months using Unreal Engine and Blueprint Visual Scripting.
- Designed and programmed a unique "Aging" mechanic where the player's physical stats (speed and stamina) dynamically decay as a penalty, reinforcing the game's core theme.
- Coded core player mechanics (movement, interaction, flashlight) and developed algorithms for logical puzzles, such as door-key systems and symbol matching.
- Created atmospheric level designs and lighting setups to enhance the game's gothic church setting and guide player navigation.

Graphic Design Intern | 2025-08

Onur Guvener (Sole Proprietorship), Mugla, Turkey (Remote)

- Assisted in the creation of 2D and 3D visual assets for various client projects, improving overall design workflows.
- Collaborated on UI/UX design elements, focusing on visual hierarchy, color theory, and user-friendly layouts.
- Utilized industry-standard design software (Adobe Photoshop, Illustrator) to deliver high-quality graphics under tight deadlines.
- Gained hands-on experience in a professional studio environment, enhancing teamwork and client communication skills.

Programmer & Game Designer | 2026

Hermes Project – Academic Group Project, Mugla Sitki Kocman University

- Programmed core character movement mechanics and built a detailed dialogue and quest flow logic for a humorous open-world adventure RPG using Unreal Engine 5 and Blueprints.
- Developed the underlying infrastructure for the player's inventory system and coded trigger and playback logic for in-game cinematics.
- Integrated backend functions for the main menu and in-game UI, utilizing GitHub for version control alongside tools like Blender and Substance Painter.

Developer Intern | 2025-08

KP Dijital A.Ş. , Mugla, Turkey (Remote)

- Engineered and maintained features within a Kotlin Multiplatform (KMP) architecture, focusing on Material Design 3 UI consistency and implementing reliable unit tests for dependency injection (Koin).
- Streamlined daily development workflows by configuring advanced Linux and Windows terminal environments, managing Gradle dependencies, and integrating AI-assisted CLI tools.
- Utilized advanced Git version control techniques to resolve merge conflicts, safely amend commit histories, and maintain clean repositories during team collaboration.
- Gained hands-on experience across the Kotlin ecosystem, from generating Android-specific UI assets to exploring asynchronous Ktor backend frameworks, significantly enhancing technical troubleshooting skills.

OTHER WORK EXPERIENCE

- **Coaching Assistant** | Bodrum Sportif Akademi | 2023 – 2024
- **Sales Manager** | Migros & LC Waikiki | 2024
- **Bartender** | Art & Interiors Hotel | 2024
- **Cinema Team Member** | ParibuCineverse | 2025 – 2026

EDUCATION

DIGITAL GAME DESIGN / 2022 - 2027

Mugla Sitki Kocman University, Mugla, Bodrum

Computer Programming / 2025 - 2028

Istanbul University - Istanbul, Turkey

CORE SKILLS

C++ | C# | Python | BluePrint | Unreal Engine | Unity | 3D & 2D Art | Game Design | Glitch and bug resolution | Testing | Level Design

INTERESTS

Football | Snowboard | Fitness | Running | Hiking & Outdoor | Cooking & Culinary | Arts | Music | Film & Cinematography | UI and UX | Documentation | Biking
